Re: Mountain Valley Pipeline, LLC
Docket No. CP16-10-000
Supplemental Information

Dear Ms. Bose:

On October 13, 2017, the Federal Energy Regulatory Commission issued Mountain Valley Pipeline, LLC a certificate of public convenience and necessity authorizing the construction and operation of the Mountain Valley Pipeline Project (“Project”). Mountain Valley takes this opportunity to inform the Commission of pending changes to the ownership status of one of its joint venture members and that member’s affiliate relationship with a Project shipper.

Currently, subsidiaries of EQT Corporation are the operator and a partial owner of Mountain Valley and the Project. In addition, another EQT Corporation subsidiary, EQT Energy, LLC, is a foundation shipper on the Project.

On February 21, 2018, EQT Corporation announced a plan to separate its upstream and midstream businesses. The separation will result in the creation of a new independent company that will focus solely on midstream operations. The separation is expected to be completed by the end of the third quarter 2018.¹

After the completion of the separation, EQT Energy will no longer be an affiliate of Mountain Valley. The separation will not result in any changes to the construction or operation of the Project or Mountain Valley’s binding, long-term agreements with EQT Energy for Project capacity.

¹ Additional information on the separation is available at the following address:
<http://media.eqt.com/press-release/eqt-announces-plan-separate-midstream-business>

Ms. Kimberly D. Bose
