Mountain Valley Pipeline Emergency Closure Order 08-08-11-18-01

**UNITED STATES DEPARTMENT OF AGRICULTURE**  
**GEORGE WASHINGTON AND JEFFERSON NATIONAL FORESTS**  
**EASTERN DIVIDE RANGER DISTRICT**

Order Number 08-08-11-18-01

Mountain Valley Pipeline Project Emergency Closure

Pursuant to the provisions of Title 36, Code of Federal Regulations, Section 261.50 (a) and (b), the following acts are prohibited due to hazards associated with constructing the Mountain Valley Pipeline on the Eastern Divide Ranger District, George Washington and Jefferson National Forests, Virginia.

1. For the protection of public health and safety, going into or be upon any area which is closed by this Order by foot, horseback, or by non-motorized or wheeled conveyance (bicycle). 36 CFR 261.53
2. Operating, leaving, possessing, or parking a motor vehicle on roads closed by this Order where construction associated with pipeline activity is occurring and when closed by a sign, gate, or barricade. 36 CFR 261.54 (e)

This Order applies to an area 200 feet on both sides of the centerline of the pipeline right-of-way on National Forest System lands as shown on the maps attached to and made a part of this Order (Attachment 1 and Attachment 2), excluding however, the footpath of the Appalachian Trail and the Brush Mountain East Road.

This Order applies to the following roads:

- Mystery Ridge Road (FR #11080) for its entire length.
- Pocahontas Road (FR #972) from the first Forest Service gate on Pocahontas Road to the intersection with Mystery Ridge Road.

The prohibitions of this Order shall remain in effect for a period of 12 months from the date of execution unless terminated earlier by the Authorized Officer.

Pursuant to Title 36 Code of Federal Regulations, Section 261.50(e), the following persons are exempt from the prohibitions contained in this order:

- Any Federal, State, or Local Officer, or member of an organized rescue or firefighting force engaged in the performance of an official duty.
- Persons working under a permit, contract, or agreement issued by a Federal, State, or Local regulatory entity which specifically authorizes activity within the area and roads covered by this Order.

Mountain Valley Pipeline Emergency Closure Order 08-08-11-18-01

The prohibitions are in addition to the general prohibitions in 36 CFR Part 261, Subpart A.

Executed in Roanoke, Virginia this 7<sup>TH</sup> day of March, 2018.

JOBY P. TIMM

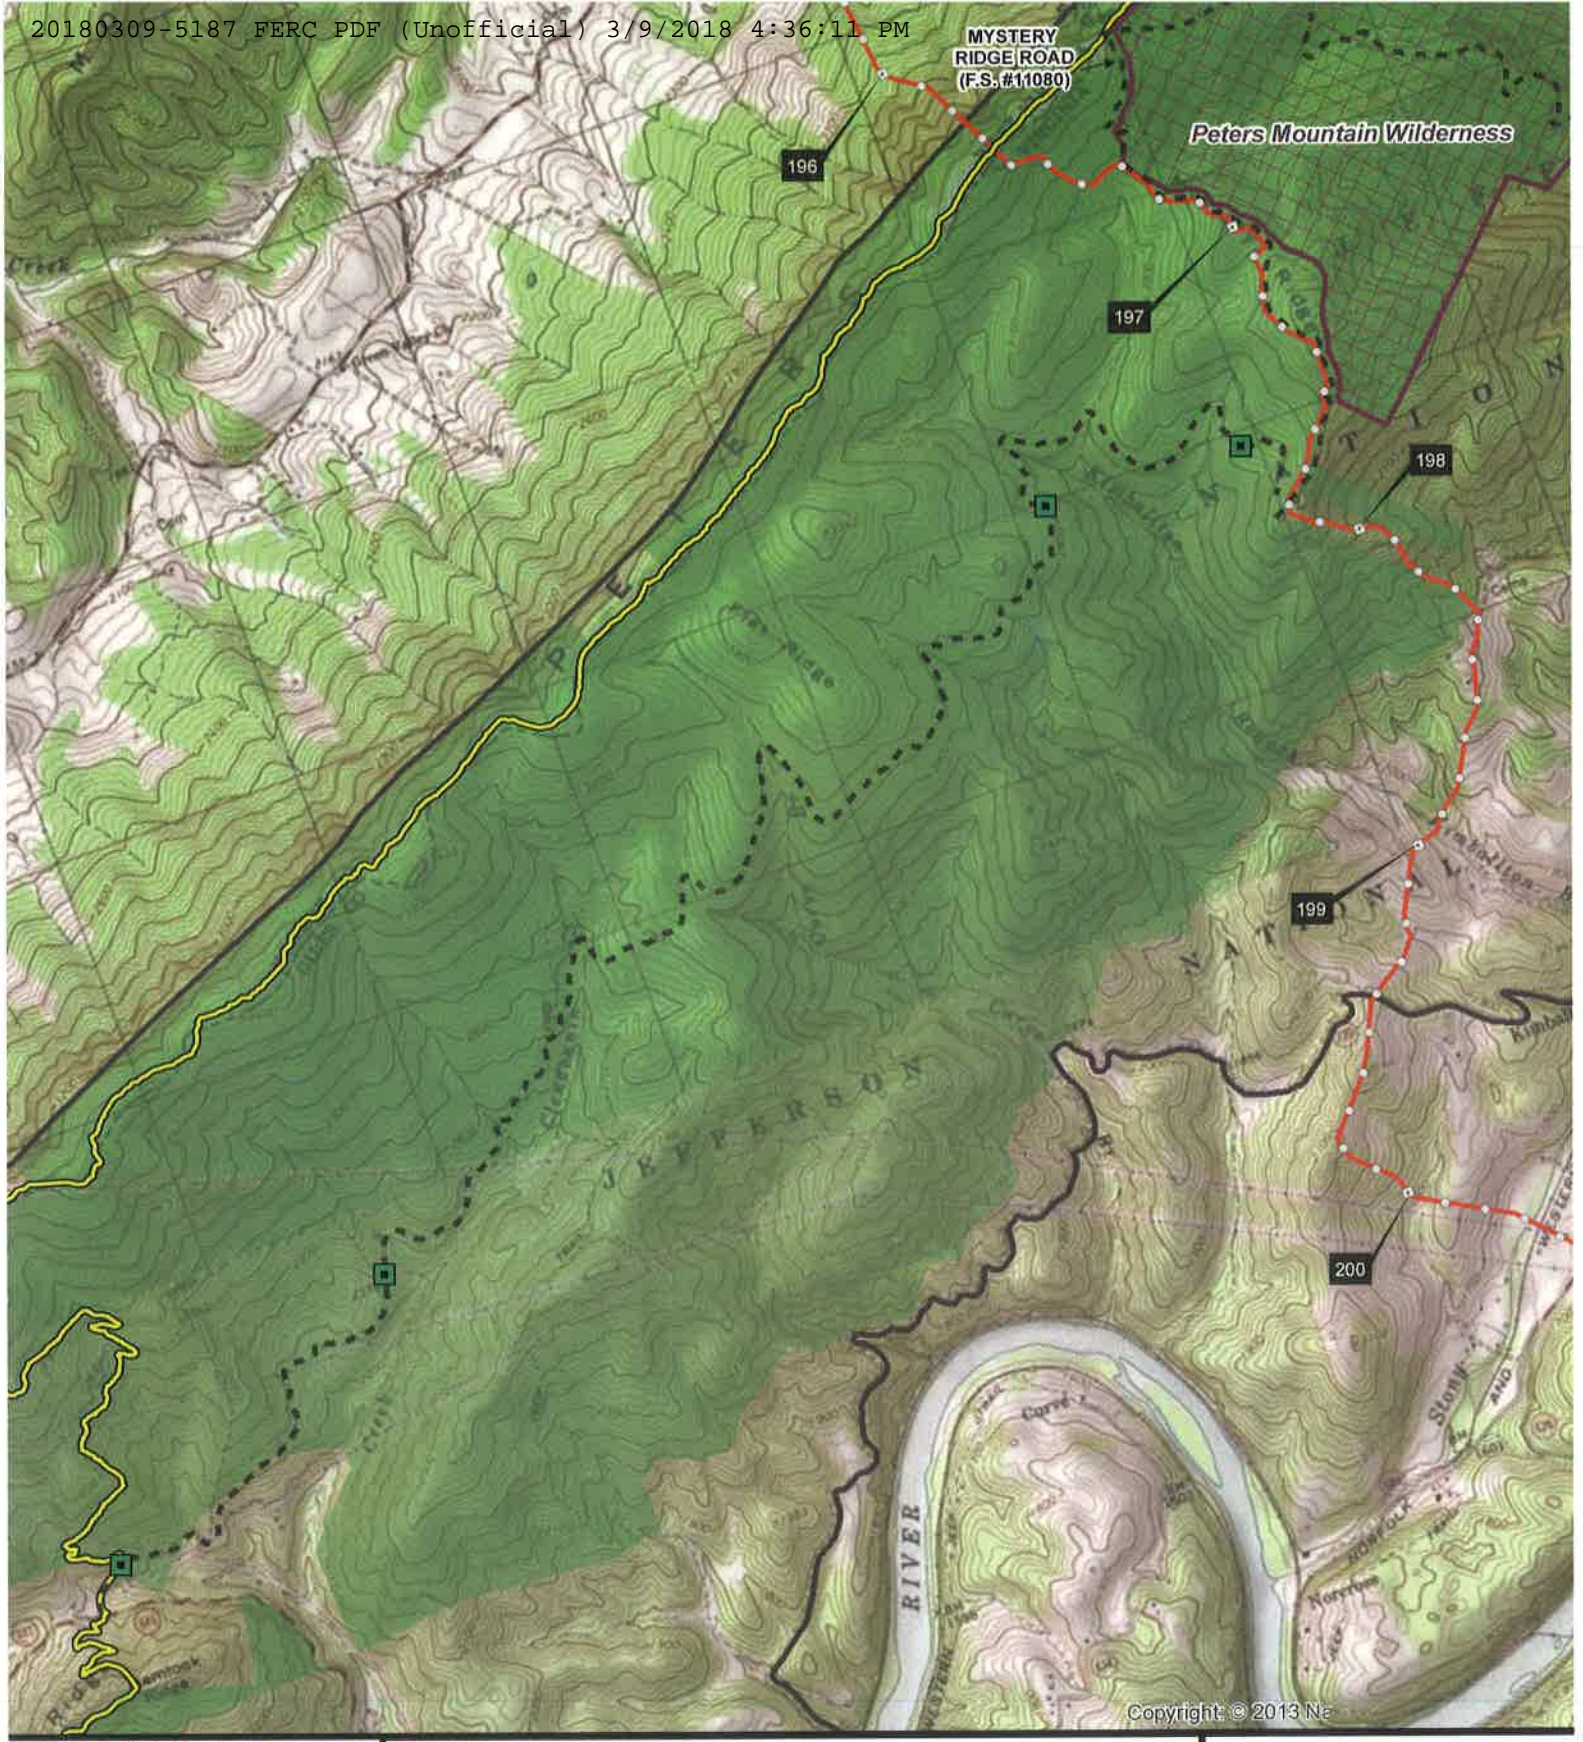

Forest Supervisor

George Washington and Jefferson National Forests

Violation of these prohibitions is punishable by a fine of not more than \$5,000 for an individual or \$10,000 for an organization, imprisonment for not more than 6 months, or both. (16 U.S.C. 551 and 18 U.S.C. 3559 and 3571).

FERC Docket No. CP16-10-000; DHR File No. 2014-1194

Dear Mr. Friedman:

The Department of Historic Resources (DHR) has received the document referenced above (revised February 2018) prepared by Tetra Tech for Mountain Valley Pipeline, LLC (MVP) and the Federal Energy Regulatory Commission (FERC) in accordance with Stipulation III.B of the Programmatic Agreement executed for this project. This Treatment Plan presents those actions to be taken by MVP to minimize and mitigate the adverse effect of the project on the Big Stony Creek Historic District (DHR ID #035-5127) in Giles County, Virginia. Specifically, the Treatment Plan proposes 430 feet of enhanced right-of-way revegetation within the district and the preparation of Historic American Landscapes Survey (HALS) Documentation for the district.

It is our opinion that the revised Treatment Plan is reasonable in scale, proportionate to the effect, and takes into consideration previous comments from DHR, the Advisory Council on Historic Preservation, and other consulting parties. DHR has no further comment at this time. Please note that the FERC has a responsibility to meaningfully consider all comments from consulting parties prior to approving any final Treatment Plan. Should you have any questions concerning these comments, please do not hesitate to contact me at [roger.kirchen@dhr.virginia.gov](mailto:roger.kirchen@dhr.virginia.gov).

Re: *Mountain Valley Pipeline Project, Revised Historic Property Treatment Plan, Bent Mountain Rural Historic District (080-0322), Bent Mountain Apple Orchard Rural Historic District (080-5731), and Coles-Terry Rural Historic District (080-5689)*  
FERC Docket No. CP16-10-000; DHR File No. 2014-1194

Dear Mr. Friedman:

The Department of Historic Resources (DHR) has received the document referenced above (revised February 2018) prepared by Tetra Tech for Mountain Valley Pipeline, LLC (MVP) and the Federal Energy Regulatory Commission (FERC) in accordance with Stipulation III.B of the Programmatic Agreement (PA) executed for this project. This Treatment Plan presents those actions to be taken by MVP to minimize and mitigate the adverse effects of the project on the Bent Mountain Rural Historic District (DHR ID #080-0322), Bent Mountain Apple Orchard Rural Historic District (DHR ID #080-5731), and Coles-Terry Rural Historic District (DHR ID #080-5689) in Roanoke County, Virginia. Specifically, the Treatment Plan proposes 1.8 miles of enhanced right-of-way revegetation, National Register of Historic Places nominations for the Bent Mountain Apple Orchard Rural Historic District and Coles-Terry Rural Historic District, a Preliminary Information Form for the Bent Mountain Rural Historic District, and \$500,000 for the maintenance and repair of the Bent Mountain Elementary School.

It is our opinion that the revised Treatment Plan is reasonable in scale, proportionate to the effect, and takes into consideration previous comments from DHR, the Advisory Council on Historic Preservation, and other consulting parties. We ask that MVP provide to DHR a letter of intent from Roanoke County that reflects their willingness to accept the mitigation funds and requisite terms and conditions for improvements to the school. Further, the *Clarification Regarding Proposed Access Road in Vicinity of the Henry-Waldron Cemetery (DHR ID #080-5690)*, dated January 17, 2018, shows that the cemetery will be avoided and protected during the construction, use, and restoration of access road MVP-RO-281; however, we recommend that all efforts be taken to increase the 11-foot buffer between the cemetery and access road by shifting the limits of disturbance completely to the north side of the existing dirt path. Extensive comments on the Treatment Plan have been provided to MVP and the FERC from consulting parties and other

stakeholders. We remind the FERC of its responsibility under the PA to meaningfully consider all comments from consulting parties prior to approving any final Treatment Plan.

It should be noted that the Treatment Plan, including the Table of Contents and Figures, regularly references Section 4.3 of the plan, but this section does not exist. The plan should be amended to correct this error.
