

2155 Mount Tabor Road

Blacksburg, VA 24060

April 6, 2018

FERC

Dear Chairman McIntyre and Commission Members,

Please note that tree-cutting is still occurring along the Mountain Valley Pipeline Right of Way at approximately 37°18'12.0"N 80°23'38.9"W on Brush Mountain in Montgomery County Virginia, observed yesterday April 5, and videotaped today April 6 at 10 a.m.

As the stated date to stop cutting issued by your commission was March 31, 2018 the cutting which is currently occurring is an illegal activity.

Please issue a cease order so that the endangered bat species that are emerging from caves at this time and will roost in trees along this route, are not killed during the cutting along the MVP right of way.

Sincerely,

Robin Scully Boucher
