

Kendall Gunter, Charlottesville, VA.
Good afternoon,

I'm writing to express opposition to the Mountain Valley Pipeline. The project has been hastily analyzed and I ask that the process be adequately vetted. I also ask that the extension on tree cutting be denied until these questions are addressed. I am against the pipeline because these pipelines have not been shown to be needed, use eminent domain for private corporate gain, and the geology of this area cannot sustain a pipeline.

Please do your duty to preserve the health of our environment.

I appreciate your time.
