

POWHR

Protect Our Water, Heritage, Rights

WITH YOUR HELP, THIS YEAR WE:

Protected What We Love

Our movement led successful public advocacy campaigns at the Federal Energy Regulatory Commission, the Biden Administration and with members of the United States Congress to stop the Mountain Valley Pipeline and seek climate justice for our region. We trained local water quality monitors in water quality testing through our Mountain Valley Watch program.

Defeated Manchin's Dirty Deal, TWICE

We united with frontlines communities, environmental justice leaders and climate justice advocates from across the nation to stop Senator Manchin's Dirty Pipeline Deal TWICE! This Dirty Deal would have forced completion and operation of the Mountain Valley Pipeline and weakened key environmental and community protections.

Cultivated Community and Collective Joy

We held the first ever "Movement Art Summit", an event to celebrate the role of art and joy in the fight to stop the Mountain Valley Pipeline. We expanded our staff capacity for community-led organizing in directly impacted communities across WV and VA.
